

## NOTICE PLAN HOLDER LISTS

MDT is migrating away from maintaining plan holder lists. Since we have been making plan packages available on the internet, it has become more difficult for MDT to supply accurate plan holder lists because we do not track who is downloading plan packages from the internet. In an attempt to help our contracting community through the first few months, MDT will supply a subcontractor list to any prime contractor who requests it for a particular project. We will also supply a list of prime contractors to any subcontractor who requests it. This is a temporary service that will be discontinued in the near future. Please contact the Contract Plans Bureau to request these lists for a particular project.
